

LET THE FUN BEGIN... 3rd ANNUAL SHOEBOX SHUFFLE

Guidelines:

- ✚ Each finished block should measure 6 ½ inches.
- ✚ Please make two (2) blocks per box per month. If you find that you have time and are enjoying this sooooo much, maybe an extra block could be an added surprise. And, when your box is returned, you may also find that someone else had a blast making yours and did one or two extras as well!!
- ✚ Once we have started, try to keep on schedule. We all know how hard it can be sometimes to squeeze in these extra projects, but we want to keep this rolling along!
- ✚ There is no fabric minimum in each box. You can add an additional fabric of your choice only if it is indicated for you to do so. Otherwise, stick to the fabrics in the box.
- ✚ If the block you make is one of your favorites, feel free to let the owner know the name of the block you chose.
- ✚ Having difficulty making a decision on what block to make? I will put patterns in the box each month to help you out, but you are in no way required to use them.

Suggestions for your Shoebox:

- ✚ Approximately 3-4 fabrics will make nice blocks. If you like the scrappy look, add more color.
- ✚ Feel free to leave a note for the block maker. Perhaps suggest your favorite or least favorite block. Or, what color you would like to be the focus color, etc.
- ✚ When choosing your fabrics for your shoebox, you may want to hold some out for sashing and borders.

Please let us know if you have any questions. HAVE FUN!
